I. Course Summary Descriptions

Emergency Management

Emergency management is an expanding field, and emergency managers play a critical role in protecting communities at the local, state, tribal, and national levels. These courses will provide an overview of emergency management issues, including resource management, emergency operations plans, communication concerns, and the impact of U.S. laws.

AEM®/CEM® Prep Course (U.S. version)

The AEM®/CEM® Prep Course was designed in partnership with the International Association of Emergency Managers (IAEM). This course is designed for emergency management professionals seeking the AEM or CEM credential. The course walks learners through submitting an application and offers essay writing tips. Primarily, the course reviews key terms and concepts that may appear on the AEM/CEM exam. Learners can check their understanding throughout the course with interactive games, review checkpoints, and exams. Certified Emergency Managers provide expert commentary, using their knowledge and experience to guide learners through the course. Plus, learners can gauge their exam readiness with two full-length practice exams, which mirror the real AEM/CEM exam.

Introduction to Emergency Management in the U.S.

Emergency management is a critical and expanding field; climate change has increased the extent and frequency of natural disasters, and terrorism is a growing threat. Therefore, emergency managers play an increasingly vital role across the whole community and all levels of government. This course is designed for learners who are studying emergency management for the first time, preparing for a new career or job role in emergency management, or seeking to refresh their knowledge of foundational concepts.

Learner Satisfaction: 91%
