# I. Course Summary Descriptions

## Business Math

MindEdge Business Analysis courses help you develop solutions that address business needs and add value to your organization. As you prepare for career-enhancing certifications and accreditations, you will gain insight into approaches that integrate business analysis principles into plans and programs that meet stakeholder needs and fulfill organizational requirements.

---

## Financial Math Basics

Mathematics is a foundational pillar of business and finance. It is necessary to understand how to apply math in different financial situations to have business success. This course will allow you to strengthen your math skills by providing examples of how basic math concepts apply in a variety of financial settings, including calculating interest, business expenses, and employee compensation.

**Estimated length: 6 hours**

**Access Time: 90 days**

**Credits: 0.6 IACET CEUs**

## Retail Math Basics

Numbers play a role in every retail business. From sales volumes to inventory counts, retailers need to understand how math can help them be successful. This course will cover some of the basic measurements and calculations used in the retail world. You will strengthen your math skills by working through examples and exercises, including calculating common retail metrics.

**Estimated length: 5 hours**

**Access Time: 90 days**

**Credits: 0.5 IACET CEUs**
